

Issue 1 – Nov. 12, 2019

# ExoClock Newsletter

Dear ExoClock participants,

first of all, welcome to ExoClock! We are very happy to have you all in this effort; we are convinced that we can altogether prepare the ARIEL observations in the best way. So far we have reached the number of 40 observations, thanks to all of you! Also, for the ones that we have sent personalised feedback for your observations, we remind you to upload again your results so we can publish them in the website.

In this journey, we have participants from all over the world and it is a great opportunity to increase engagement and interaction with each other.

To facilitate this, we will release newsletters periodically to keep you updated about the project.

## In these newsletters we will:

- Inform you about new features in the website
- Keep you updated about the progress of ARIEL
- Provide tips to avoid common mistakes
- Include highlights of your observations
- Answer your questions (one or two in each issue)

## Special topics in the newsletters

We will have a special topic in which some of you – the participants – will be featured when we get the most interesting exoplanet observations. The topic will be different in each issue in order to cover a variety of them. For example, the special topic might be an observation of a very rare transit or a transit that is flagged as high priority in the schedule. These are much more challenging observations and will be used as a topic of discussion.

## Please send us at [exoclockproject@gmail.com](mailto:exoclockproject@gmail.com):

- Your feedback on the website
- Suggestions for new features
- Questions on the observations or the analysis
- Ideas for topics you would like to see in the newsletters

## And we will reply through the next newsletters!

Clear Skies,  
the ExoClock team

**CHECK this out!** The open conference for ARIEL is happening at Noordwijk, the Netherlands, from the 14<sup>th</sup> to the 16<sup>th</sup> of January 2020. You are welcome to attend it (no registration fee) by registering in the following link:

<https://www.cosmos.esa.int/web/ariel/ariel-science-mission-community-2020>

Note that the **deadline** to register is **in 2 days, the 14<sup>th</sup> of November, 2019.**
